

## Nuneaton Town Supporters' Co-operative

---

Dear Ian

The proposals put forward at the recent meeting between representatives of Nuneaton Town Supporters Co-operative and Nuneaton Town FC have been discussed at a recent board meeting of Nuneaton Town Supporters' Co-operative.

In response to issues raised at the meeting between the club and the Co-operative, we are greatly encouraged by the club's decision to re-organise the make-up of the club's board into a more formal structure with the addition of selected board members, who are prepared to invest in and progress the club over a period of time.

The Co-operative would like to confirm that when such re-organisation takes place that we will be interested in exploring any opportunities for supporter representation within that new structure subject to oversight by Supporters Direct.

We feel that we could add real value to such a structure and would, in those circumstances, be prepared to work pro-actively with the club in bringing about real supporter representation.

We look forward to discussing this opportunity at our next scheduled meeting and possibly to arrange a meeting between the club, The Co-operative and Supporters Direct.

Best regards  
John Hobson  
Chairman, Nuneaton Town Supporters Co-operative
